MOUNTED AIR INTAKE

The LEYLAND PHOENIX's air intake is mounted high behind the cabin in order to ensure a cleaner and cooler air intake which provides more efficient combustion and reduces the chances of dust and grass seed entry. Thus, increasing the life span of the air filter.

STURDY REAR AXLE

The LEYLAND PHOENIX comes standard with a sturdy, Semi-Floating rear axle which ensures less maintenance. The single piece construction of the Banjo type differential with hypoid gear arrangement ensures ease of serviceability.

COMFORTABLE, AIR CONDITIONED CABIN

The LEYLAND PHOENIX offers a comfortable, spacious and air conditioned cabin with seating for three. Effortless Power steering reduces driver fatigue. Neat and easy to read digital driver console for maximum driver comfort.

STRONG LOAD BED

The LEYLAND PHOENIX is available with strong and durable drop sides. Sturdy hinges and strong latches ensure longevity of load bed movable sides. 2mm floor and sides with 3mm reinforced corners ensure the integrity of the load bed and sides.
